VALEDICTORY ADDRESS

OF

PAUL LaBONTE

MAYOR OF SOMERSWORTH

TO THE CITY COUNCIL

March 17, 1914

VALEDICTORY ADDRESS

To the Members of the City Council:

Gentlemen.—As the end of my term of office as mayor of this city is near at hand, I desire to thank the City Council and all others connected with the city government for the aid which has been rendered me during the two years which I have served. It is true that we have not always agreed on the policy to be adopted at times, but taken as a whole I feel that each man has endeavored to do what he thought was right, regardless of what position others might take in the matter at hand.

We have been able to carry out the greater part of the recommendations made by myself upon my induction into office. Particular attention has been paid to our highways and sidewalks, so that our streets and sidewalks, though being far from perfect, compare most favorably with those of other cities in this state.

During my administration the state road has been extended on High street, from Pearl street to Washington street, and the same treated with oil. The macadam on High street, from Washington street to Fore street, has been relaid and macadam has also been put in on Washington street, from Orange to Main street; also on West High street. State road has been built from Washington street to the Rochester line, a stretch of about two and three-quarters miles. The idea of having one man retained by the street department to take care of the waste which accrues in the streets from day to day has been tried out during the past year and has proved a success.

The chlorine treatment for purification of water has been installed at the filter bed. This system does the work desired in so far as needed in the eradication of germs, bacteria, and things of a like nature, which may be found in the water of Salmon Falls river.

A compressed air fire gong apparatus has been placed in working order, which I feel will be a great improvement on conditions as they have existed for the last few years.

Many minor changes for the better have been made, and I believe that the administration, just passed, can truly be classed as progressive. I have been as economical as possible under the conditions prevailing to-day, but with prices high, it is a practical impossibility to accomplish anything without the expenditure of much money.

My congratulations and best wishes I extend to the incoming mayor, and I know you will do all in your power to further the advance of what I feel will be a successful administration.

INAUGURAL ADDRESS

OF

FRED H. BROWN

MAYOR OF SOMERSWORTH

TO THE CITY COUNCIL

March 17, 1914

INAUGURAL ADDRESS

Gentlemen of the City Council:

As I assume the duties and obligations of the honorable position to which I have been elected, I should do an injustice to my feelings if I failed at this time to extend to my friends and fellow-citizens my thanks for the endorsement which allows me to direct the government of our city during the year to come.

It is fair to presume that we have been chosen to serve the people because they have faith and confidence in our ability, integrity and honesty of purpose, and it is the duty of each one of us to see to it that such confidence is not betrayed.

The first thing necessary is, that we should live together harmoniously; we may differ in our views very materially on the problems that come before us, but if we hope to make a happy solution of any point over which there is argument, we should not be illiberal in our views; arrive at a decision, bending every energy to keep harmony in our ranks, and such action will inure greatly to the benefit of the city of Somersworth. Take up each matter that comes before you for consideration in a careful manner, treating all citizens on a basis of equality no matter what their station in life may be.

According to figures presented by our city clerk, I find the financial status of the city to be as follows:

FINANCIAL—MARCH 1, 1913

Water works bonds	$152,000 00
General indebtedness bonds	86,000 00
General indebtedness notes	50,149 79
Cemetery trust fund	15,808 35
Chandler trust fund	2,000 00
Total liabilities	$305,958 14

Total assets	$24,300 49

FINANCIAL, MARCH 1, 1914

Water works bonds	$148,000 00
General indebtedness bonds	82,000 00
General indebtedness notes	57,849 79
Cemetery trust fund	18,068 35
Chandler trust fund	2,000 00
Total liabilities	$307,918 14
Cash on hand, March 1, 1914	$3,763 24
Cemetery trust fund	18,068 35
Chandler trust fund	2,000 00
Total assets	$23,831 59
Net debt March 1, 1913	$281,657 65
Net debt March 1, 1914	284,086 55
Net increase of indebtedness	$2,428 90

HIGHWAYS

During the last few years a considerable sum has been expended on our highways and sidewalks, so that we now have an admirable state road from Dover to the Rochester line and have many new sidewalks. Of course there will always be room for improvement in our sidewalks and streets, and the maintenance of a state road from year to year is no small item, but it seems to me that the cost of running this department should be curtailed in some degree and I hope that those of our citizens, who are in need of sidewalks and are not success-

ful in having their needs satisfied, will try and bear with us until another year, when perhaps those who are in charge of the finances of the city may find money available to be used in making changes for the better in our sidewalks, wherever a change of any kind is desired.

WATER WORKS

The Electro Bleaching Company, with the aid and direction of a special committee of the city council, and water commissioners, have established at the pumping station a chlorine plant, the same to be used for sterilization of the water; this system has been accepted by the city council and in active operation since March, 1913; up to date it has given entire satisfaction.

The usual amount of about three hundred cubic yards of sand has been placed on the filter bed, which keeps it about up to standard.

FOREST GLADE CEMETERY

The board of directors, who have in charge the management of the affairs of this department, are to be commended for the consistent and practical improvement of the cemetery. During the past year a new iron fence has been erected along the highway front, which adds greatly to its general appearance. The trust fund is growing rapidly, an excellent prospect for the future and its continued proper maintenance and general welfare. It is to be hoped that in time every lot will be endowed with such a fund for its perpetual care.

Cemetery improvement and maintenance in keeping with the times have advanced and such methods as may be best adapted to our needs should be carefully considered.

An adequate water supply is the chief need of the cemetery, in order that the work done there may be seen at its best during the season when conditions do not permit of good results because of lack of rain.

I shall not discuss all the departments of the city govern-

ment in my inaugural as most of my predecessors in office have done, for the simple reason that I do not at present feel well enough acquainted with the demands, or needs, of certain departments, to make any reasonable recommendations.

In our public schools where I know good work is being done I recommend particularly that we branch out to some extent in manual training and sewing. At present, we have two teachers in charge of the above named courses, who I am led to believe are much better than the ordinary in their respective lines of work, and I hope that we shall be able to make progress in this direction, for I feel that such things are becoming more of a necessity to our schools each year.

Our fire department is in good condition, and though we have had no fires recently which would tend to test the real merit to be found in the department as it stands to-day, yet I am inclined to believe that the equipment, or men, would not be found wanting whatever the duty might be that they were called upon to perform. In my opinion the efficiency of the department can be preserved and the expense of maintenance lessened somewhat by reorganization and I recommend that said fire department be reorganized with the idea in mind of reducing the cost of supporting the same.

The general health of our community has remained normal during the last year except for an epidemic of small pox which we were unfortunate enough to have with us for some time. If we should be victim to another such epidemic it would be much cheaper and more practicable to establish a pest house. I think that I should favor such a means of disposing of small pox in the future, but of course circumstances might arise where such a plan would not be feasible in all cases.

There is a resolution, or something of that nature, now before you, which tends to regulate the salary of the sanitary officer of our city; that should be taken from the table and acted upon without delay.

The paramount question with which we, as well as all other cities and towns have to contend, is the matter of taxation;

the equalization of this burden depends to a great extent upon our board of assessors. Taxes are evaded in many ways, thus causing an unjust apportionment, and I recommend that our board of assessors perform their duty diligently and fearlessly; if that is done in all cases, though there is bound to be a certain amount of dissatisfaction, I firmly believe that the majority of our citizens will do what they are able to make the assessors' path an easy one to travel.

Gentlemen, this morning I shall speak to you of but a few things that will come before us during the ensuing year. In closing let me impress upon you that a very important trust has been placed in our hands. You must expect much criticism from the press and some from individuals as well, and though it may seem unjust and uncalled for at times, such action is much better than total indifference or applause without discrimination, for in showing our faults our critics will certainly make much more prominent our good points if by chance it should happen that we have any.

Let us use great care in making appropriations for the different departments and I want all to take notice that I shall insist on the heads of the various departments keeping within their appropriations. This is to be an administration of economy if it be in my power to make it so, and I am saying this not because it looks well to say such a thing on an occasion of this kind, but because I mean it. Let us go ahead in a conservatively progressive manner, living within the means at our command, always having in mind the good welfare of our city, so that when our term of office has expired and others come to fill our place we may feel that we have done some service, small though it may be, in the upbuilding and growth of Somersworth.

To His Honor, the Mayor, and the City Council:

Gentlemen. — For reasons that the Directors of the Forest Glade Cemetery did, in the Spring of 1913, borrow of the City of Somersworth on their note to said city the sum of twelve hundred dollars to be paid by anticipated contributions, and whereby said contributions have not been received in sufficient amounts to carry out the plans of erecting an iron

fence and gateway, the directors hereby offer the following petition that the directors may be enabled to pay the above note of twelve hundred dollars and further complete former plans.

SOMERSWORTH, N. H., November 18, 1913.

To His Honor, the Mayor, and the City Council:

Gentlemen. — The Directors of the Forest Glade Cemetery petition your honorable body for the following purposes:

That the City Council authorize the City Treasurer to borrow from the cemetery trust fund the sum of fifteen hundred dollars to be paid to the Forest Glade Cemetery account, to be appropriated as follows: twelve hundred dollars to be paid to the City of Somersworth, in payment of note bearing date March 17, 1913, with interest; the balance to be applied to the further carrying out of plans in said iron fence and gateway, and other needed improvements.

Respectfully submitted,

PERAMBULATION OF CITY LINES

Perambulation of Somersworth Town Line, Between Somersworth and Rochester

Pursuant to a notice from the city clerk of Rochester to the city clerk of Somersworth, we, the undersigned, met at the house of Allen Twombly on the 15th day of November, 1913, at one o'clock in the afternoon, and proceeded to perambulate the line between said cities and renew the marks and establish the bounds as follows:

Beginning at a large rock in Col. Thomas H. Dearborn's pasture at the northwest corner of Somersworth, marked "D. R. S.," "1793," "1833," "1840," "1847," "1885," "1892," "1899," "1906," to which we added "1913"; thence, running N. 45 E. 75 rods to a rock on the west side of the old road, marked, "R. S.," "1848," "1892," "1899," "1906," to which we added "1913," then N. 45 E. 9 rods, 12 links to a rock on the east side of the new road marked "R. S.," "1885," "1892," "1906," to which we added "1913;" thence N. 45 E. 41 rods, 8 links to a rock in the Twombly pasture, marked, "1863," "1892," "R. S.," to which we added "1913,"; thence N. 45 E. 168 rods to a rock on the east side of the Gonic Road, marked "R. S.," "1855," "1892," "1906," to which we added "1913;" thence, N. 45 E. 163 rods to a rock on the east side of the old Main Road, marked, "R. S.," "1848," "1906," to which we added "1913;" thence, W. 45 E. 383 rods on a line running 18 links north of Joseph Graham's house to a rock in the Tebbett's pasture near the river, marked, "R. S.," "1801," "1848," "1892," "1899," "1906," to which we add-

ed "1913;" thence N. 64 E. about 12 rods to the state line in the middle of the Salmon Falls river. The above is taken from 1870 survey of Allen Twombly.

Perambulation of Somersworth Town Line, Between Somersworth and Dover

Pursuant to a notice by the city clerk of the city of Dover to the city clerk of the city of Somersworth, the undersigned met at the southwest corner of Somersworth on the 22nd day of November last, at nine o'clock in the morning, and proceeded to perambulate the line between said cities, and renewed the marks and bounds thereof, and established the same as follows: Beginning at a stone monument set into the ground in the center of the road leading from Dover to Somersworth marked on top "D," "S," "R," "1891," "1899," "1906," thence N. 32°W. 55 rods, 13 links to a stone on the shore of Willand's Pond marked "D," "S."

Thence N. about 32°W. 204 rods, 8 links to a stone monument set into the ground on the east side of the road near the grandstand of the Granite State Park marked "D," "S," "1899"; thence N. about 32° W. 149 rods, 17 links to a stone set into the ground between the rails of the electric railroad on the Rochester road marked "D," "S," "1885," "1899," thence N. about 32°W. 263 rods to a large stone on the southerly side of the road leading from Somersworth to Gonic marked "D," "S," "1899;" thence N. about 32° W. 208 rods to a stone on the westerly side of the road from Blackwater to Allen Twombly's marked "D," "S," "1849,"

"1899;" thence N. about 32° W. 51 rods, 3 links to a very large boulder on the property of Col. Thos. H. Dearborn marked "D," "R," "S," "1793," "1833," "1840," "1847," "1848," "1885," "1892," "1899," "1906," "1913."

In witness whereof we have set our hands this 9th day of December, 1913.

WILLIAM A. GROVER,
For City of Dover.

ERNEST S. FOSS,
For City of Somersworth.

Perambulation of Somersworth Town Line, Between Somersworth and Rollinsford

We met on the 11th day of December, 1913, and located the following lines: We began at a stone post marked "R," "S," on the banks of the Salmon Falls river and near the division line between the land of Moses H. Pray and Mrs. Louis Dorr; thence south 71 degrees west to a stone post marked "R," "S," "1849," "1906," standing about 37 feet westerly from the center of the Conway branch of the Boston and Maine railroad, and near the Boston and Maine railroad crossing; thence south 71 degrees west to a stone post on the easterly side of the road leading from the city of Somersworth, and passing the dwelling house of James Goodwin marked "S," "R," "1849;" thence same course to a stone post marked "S," "R," "1849," standing on the westerly side of the road leading from the city of Somersworth to Dover, and near the dwelling house of Edmund Goodwin; thence same course to a stone post marked "R," "S," standing near the top of the hill on land of Exavier St. Peter, formerly owned by George B. Lord; thence same course to a stone post marked "D," "R," "S," "1849," "1891," "1892," set near the center of

the old road leading from the city of Dover to the city of Somersworth on a level of said road, and 25 1-2 feet from the corner post of the division lines between land of Walter Gage and the Dover, Somersworth and Rochester Street railway; the stone marks the southwesterly corner of Somersworth, and the northwesterly corner of Rollinsford, and is about 16,632 feet from the Salmon Falls river.

This course and the distances were taken from a former record.

For City of Somersworth.

H. HALL ROBERTS,
For Town of Rollinsford.

ANNUAL REPORTS

OF

THE SEVERAL DEPARTMENTS

OF THE

CITY OF SOMERSWORTH

ENDING MARCH 1, 1914

REPORT OF CITY SOLICITOR

To His Honor, the Mayor, and the Honorable City Council of the City of Somersworth:

Herewith is submitted my report for the municipal year ending March 31, 1914.

The cases now upon the docket of the Superior Court for the county of Strafford in which the city of Somersworth is a party thereto are as follows: Nos. 732 and 789 Equity, entitled Dover, Somersworth and Rochester Street Railway Co. v. City of Somersworth, also Nos. 959, 960 and 962 Equity, the same being petitions for abatement of taxes brought by Mathews & Stevens, Benjamin F. Hanson and Michael J. Casey. No. 889 Equity, entitled James H. Joyce v. City of Somersworth, has not been disposed of, and the same may be said of No. 966 Equity, which is the case of the Salmon Falls Manufacturing Company against the City of Somersworth.

The last named case is of course the most important in the list and no doubt it will be taken care of at the next term of the Superior Court in September.

In Police Court circles, matters have progressed in about the same way as in previous years, and the Juvenile Court has had practically nothing to do.

I wish to thank those who have assisted me in my duties during the past year.

Respectfully submitted,

FRED H. BROWN,

City Solicitor.

REPORT OF LIBRARY TRUSTEES

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Your library trustees submit their report of their doings for the fiscal year ending March 1, 1914, including herein as a part thereof the report of the librarian, which latter fully covers the work of the library.

With the added appropriation for the year your trustees have been able to purchase more new books than at any time for the past ten years.

You will note by the financial report that for new books and periodicals $723.71 have been spent.

In order to keep the library up and make it useful to this community it will be necessary to expend as much money or more annually. The increased use of the library makes increased wear of the books, and much of the material in the library should be renewed by purchase of new books.

Your trustees urgently request you to make a special appropriation of not less than $1,000.00 for the use of the library for the coming year.

Report of the Librarian

To the Board of Trustees of the Somersworth Public Library:

Gentlemen. — The report of the year ending February 28, 1914, setting forth the work of the library, is herewith presented:

THE YEAR'S GROWTH

Largest number any day		182

Again we present the figures for a year's work in the Somersworth library, and these figures themselves prove that it has been a year of progress.

As in the previous year, we have striven to give to the patrons of the library prompt and courteous attention and whatever of assistance has lain in our power, and have felt that what we have tried to do has met with ready appreciation.

During the year our corps of assistants has been changed. Miss Marion Stevens and Miss Dorothy Hill, who had proved themselves efficient helpers, left for other fields of service, and we count ourselves fortunate in having secured in their places Miss Mildred Kinsman and Mrs. Alice Fullerton.

At Christmas time a huge Christmas tree, brilliant with electric lights, and gay with decorations and gifts, gladdened the eyes of the little folks. Generous gifts from many interested outsiders helped to make this possible, and no one who witnessed the delight of the little people could doubt but that time and labor were well expended.

In this connection we may mention the fact that $55 of the money received from fines during the year has been expended in children's books.

The experiment of opening the reading room on Sunday afternoon was tried, but the response did not justify its continuance.

Very recently, through Hon. C. H. Wells, Mr. George W. Burleigh, of New York city, has presented the library a collection of letters which are extremely interesting. They are letters written to the late Hon. George W. Burleigh in 1854, referring to arrangements for lectures to be delivered before the Great Falls Institute in that year. While the subject matter may possess no great value, still it throws an interesting side-light on Somersworth's past, and such signatures as O. W. Holmes, Bayard Taylor, Henry Ward Beecher, and other celebrities prove that in the olden days, "Great Falls" was in the front rank, as regards literary interest and activity.

We specially mention this gift because it seems to us a very suggestive one. Doubtless others of the old families of Somersworth, families whose names are a familiar part of its history, possess similar memorabilia, which might prove of wonderful

interest to future generations. If manuscripts, letters, books, pictures, etc., possessing such value, could be presented to the library, a repository might be established which would be of untold interest and even of great historical value. We simply throw out this suggestion, hoping that some seed may fall on fertile ground and so spring up and bear fruit.

Again, we thank the trustees for their unfailing courtesy, consideration and co-operation in our effort to make this library the best possible, with the means at our command.

STREET COMMISSIONER'S REPORT

Somersworth, N. H., March 1, 1914.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen. — In accordance with the provisions of the city ordinances, I herewith submit my second annual report as street commissioner for the fiscal year ending February 28, 1914:

STREETS

All streets have been kept clean, and also all highways cleared of stone or other matter liable to impair good travelling, and put in good condition, and where grading was necessary, improvements have been made.

STATE HIGHWAY

We have completed the stretch of state highway on West High street, from Washington street to the Rochester line, a distance of about 4,500 feet; also, have built new culverts, and railings along same, where needed.

MACADAM

We have re-laid macadam on High street, from Fore street to Mount Vernon street. Have also made a new macadam road on Washington street, from Main to Orange street, and Union street has been greatly improved by using the old macadam on same. Have also oiled our new macadam road from Pearl street, down High street, around Lincoln, and also, Market Square, and, also, Washington street, from Main to Orange street.

ROADS

We have graded Lincoln street with gravel, also the following streets, throughout the city, with ashes, namely: Maple, South, Green, and several streets in the Brick yard district.

SEWERS

All the sewers about the city have been cleaned out regularly, when needed, and kept in proper condition to secure good drainage. Have also made great improvements on High and Market streets, by putting in new catch-basins between the Dover, Somersworth and Rochester street railway's electric car tracks.

CURBING

We have laid 3,825 feet of curbing; of this amount, 2,850 feet was cement and 975 feet was stone. The curbing has been laid along the following streets: On the easterly side of High street, from the corner of Washington street to Orange street; on the easterly side of Green street, from Church court to Fayette street; on the southerly side of Fayette street, from Green to Main street; on the easterly side of Pleasant street, from Green to West Green street; on the westerly side of West Green street, from Pleasant to Franklin street; on the southerly side of Fremont street, from West Green to Garden street; on the easterly side of Garden street, from Fremont to Franklin street; and on the easterly side of Franklin street, from Portland to High street.

SIDEWALKS

As is generally known, our sidewalks needed attention, and we felt that all improvements in this part of the work should be made, as far as possible, of a permanent nature. Concrete walks have been laid on the following streets, namely: on the easterly side of High street, from the corner of Washington street to Orange street; on the easterly side of Green street, from Church court to Fayette street; on the southerly side of

Fayette street, from Green to Main street; on the easterly side of Pleasant street, from Green to West Green street; on the westerly side of West Green street, from Pleasant to Franklin street; on the southerly side of Fremont street, from West Green to Garden street; on the easterly side of Garden street, from Fremont to Franklin street; on the easterly side of Franklin street, from Portland to High street; on the easterly side of Portland street, from South to Franklin street; on the north-westerly side of Pine street, from Union to Green street; on the easterly side of Main street, from Wallace street to the residence of Mr. Joseph Blanchette; also on the easterly side of Main street, from Wallace street to Deluge No. 1 engine house; on Indigo Hill road, from Main street in a southerly direction, across the tracks of the Boston and Maine railroad; on the northerly side of Prospect street, from Market street, to the junction of Linden and Maple streets; on the northerly side of Maple street, from Lincoln to Linden street; on the southerly side of Grand street, from Hamilton to Highland street; from the corner of Highland and Prospect streets to the corner of Lincoln street.

RECOMMENDATIONS

I still recommend that the laying of sidewalks be continued, and that such work be thoroughly and permanently done, and would also recommend the repairing of other macadamized streets, and have liberal appropriations made for improving same.

In closing, I desire to thank his honor, the mayor, and members of the city council, for their kindness and courtesy during the past year.

Respectfully submitted,

GEORGE LETOURNEAU,

Street Commissioner.

AUDITORS' REPORT

SOMERSWORTH, N. H., May 1, 1914.

To His Honor, the Mayor, and Board of City Council:

We hereby submit our report as auditors of the City of Somersworth for the fiscal year ending February 28, 1914:

We hereby certify that we have examined the books and vouchers of the city clerk and find same kept in form prescribed by the ordinances of the city of Somersworth. The payments for the year are found to agree with the books of the city treasurer, after making allowance for unpaid orders. We have also examined the books of the superintendent of Water Works and of the tax collector and find same correctly cast and all payments properly vouched for.

Respectfully submitted,

FRED K. WENTWORTH,
JOHN B. MORIN,

City Auditors.

3	Engineer's call.
1	All out.
3	Scouts' call.

SIGNALS

One stroke of the bell is the all-out signal.

2–2–2 strokes of the bell is for a brush fire, or a fire seen at a distance, where the department is needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

GENERAL RULES

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire:

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.
3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in a track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.
4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Honorable School Board of Somersworth:

Gentlemen. — Since my annual report of one year ago, there has been added to the course for the boys in the grammar school elementary course in carpentry. There are ninety-three young men who have the advantage of this course and are taking the work at the same time that the young ladies of the same school are receiving instruction in sewing. The carpentry work is along the lines which are indicated by the instructor in that department.

The subject of industrial training is now prominent in discussion relating to our educational system and this subject has been forced upon the people of this land in view of the fact that the grammar schools graduate boys and girls too young or too immature physically or mentally for the active duties of life. These boys and girls leave the grammar school, having been granted permission to enter the High school, are asked to decide which of the courses of the High school, each four years in length, he or she desires to take. This is a difficult question to be answered by a pupil who possibly may have no intention of remaining more than one or perhaps two years at school.

The pupil is not of sufficient maturity physically or mentally to warrant his entering upon an industrial pursuit with a view of learning a trade. An employer of labor does not desire to engage such a youth as an apprentice. The question is then, what shall be done with the pupil between the ages of twelve and sixteen? He may have no intention or desire at the time of entering the High school, of going to college, but as he progresses, he makes this desire manifest. He may at the time of beginning have no intention or desire to enter an industrial pursuit, but as he continues his studies he is impressed

with the conviction that he should engage in some pursuit in which there is a demand for skilled labor. The obvious conclusion then is not to rearrange our courses of study to such an extent that the High school becomes a vocational school entirely but that as the opportunity occurs, a gradual introduction of those practical arts into the courses which those pupils show a manifest predilection for.

On the other hand the privilege of certification granted to our High school is too important to be either thrust aside or interfered with to the extent that the retention of that certification is rendered uncertain. It is certainly evident that a High school cannot prepare for higher institutions unless the grades below have done their share of the work.

Without being led astray by those who speak entirely from the vocational standpoint or holding too closely to the lines of fitting for college only, it would seem the wise thing to do to still give prominence and exclusive attention in those lower grades to those special subjects which have for so many years proved their value, namely: the fundamental subjects of spelling, reading, writing, and arithmetic.

With the introduction, so far as it has proven successful, of those special subjects which tend to illuminate, illustrate and enlarge the course and to extend them gradually into the high school where full credit will be given for trained hands that can do, as well as for trained brains that can direct.

It would seem then, that without endangering our scholastic standing we might afford to the boys of the incoming Freshman class in the High school an opportunity to extend their knowledge in industrial work by having a class on Saturday forenoon if a sufficient number would warrant the employment of a teacher for that time.

The sewing in the schools during the year has been eminently practical and a knowledge of the subject has been gained which will be of great value to them in the home in years to come. With little expense to the city, sewing machines and other appliances for finishing the work ought to be added to

the course in the coming year. There are other subjects of the "new education" which we could well introduce, if we were equipped in the matter of buildings, to economically perform, but the mainstay of our educational plant is to see that the pupils are well qualified in those common branches, as prescribed by the statute laws of the State.

On June 9, 1913, a new Child Labor Law went into effect which requires that no child can be given a certificate for employment for all time, unless they are fourteen years old, and have completed the grammar school course. This of itself is keeping in the schools a number of children who would otherwise be at work. They are over age and some could, under favorable conditions, do in one year the work that requires the younger children two, to perform. A special class for such pupils would be of great advantage, not only to those attending that mixed class, but also to the class from which they were taken; thereby allowing a closer classification of the pupils remaining.

I want to take this opportunity to thank the Board and teachers for their extra efforts during the last five or six weeks in keeping their schools up to the standard, when I have not been able to inspect them. It seemed to me, on my first visit, that the teachers had made extra efforts to accomplish results, and for that cooperation and assistance, I wish to express my thanks.

Respectfully submitted,

FRANK S. SUTCLIFFE.

REPORT OF TEACHER OF MANUAL TRAINING

To the Superintendent of Schools and the School Committee of Somersworth:

Gentlemen. — I herewith submit to you my first annual report for the department of Manual Training.

During the half year now closing, the course in Manual Training was established. A first-class equipment consisting of twenty benches and the ordinary tools for each pupil were purchased, and installed in a vacant room of the Union street school. To this room, some ninety boys from the Grammar school, four from the fifth grade of Union street school, and one from the fifth grade of the Burleigh, came each week for a period of one hour. Although this is a limited time, much work has been already accomplished, and the boys have received a good start in the use of each tool. The pupils grow more interested in the work each week.

Up to the present time, each class has constructed the following articles; the ring toss, coat hanger, broom holder, towel rack, tabouret, book rack and magazine stand.

The pupils are taught to construct their projects from a blue-print. This enables each boy to become acquainted with the use, and to see the necessity of a working drawing. The work has been so arranged that each one may obtain the most physical exercise, and, although a good finish is insisted upon, exactness is not allowed to destroy interest in the work. It has been my aim to introduce projects that are of interest in their construction, and that may be of use after they have been made. The aim is also to train each boy in the use of each tool, so that he will be able to work independently; the work being arranged in such a way that the hand is trained to follow the working of the brain.

I should recommend that the work be continued, through

the first year of the High school; for as Manual Training is now organized, bench work in wood is very often begun in the upper grades and continued through the first and, sometimes, through the first two years of the High school.

At the end of the first two years in the High school, the average student should know how to handle, and be able to do good work with ordinary wood-working tools. In addition to this, he should have developed a judgment upon wood construction, which will enable him to select the best wood, and use the most effective joints for ordinary wood construction.

The pupils are allowed to purchase each article, as it is finished, paying for the amount of material in each project.

Although the equipment is a very good one, yet there is a number of necessary tools which are lacking, and I would recommend that additions be made each year, for, unless the system is replenished and increased, it would soon become useless.

In closing I wish to extend thanks to you, the school board and teachers for their hearty cooperation and efforts to make the work a success.

Respectfully submitted,

MICHAEL J. O'MALLEY, *Teacher of Manual Training.*

Class Ode

We're gathered now my classmates
To sing our parting song,
To say farewell to our High School
Amidst this waiting throng.
We've spent four years together
But now must quickly go;
But ere we part, we'll bid farewell
To Alma Mater O.

No more we'll meet all as one class,
No more together work.
No more our failures, our success
Around our class will lurk.
Our school days here are now all passed,
We're alumni now, you know.
Long live in memory and our hearts
Our Alma Mater O.

Hither we came some years ago,
With joy in every heart;
Let's give to each the helping hand
To aid us as we part.
United firm with friendship true,
May we be loyal, oh;
To Somersworth and our High School
Our Alma Mater O.

Then let us pray with earnest hearts
That honor we may bring
Upon our school, for well we know
It's praises we may sing.
God bless you all, may His blessings
Rich, upon you all bestow;
Our last farewell we give to all
Our Alma Mater O.

REPORT

OF

WATER COMMISSIONERS

FROM

MARCH 1, 1913, TO MARCH 1, 1914

WATER COMMISSIONERS.

Arthur J. Seavey, Chairman.
Charles F. Crockett, Clerk.
Frank E. Hobbs.

Arthur J. Seavey, elected March 26, 1907; term expires June 16, 1916.

Charles F. Crockett, elected March 28, 1908, term expires June 16, 1917.

Frank E. Hobbs, elected March 27, 1912; term expires June 16, 1915.

REPORT OF WATER COMMISSIONERS.

To the Honorable Mayor and City Council:

Gentlemen: In accordance with the city ordinances, your board of water commissioners herewith submit the following annual report for the year ending February 28, 1914.

Following the usual custom, the commissioners met at their office in the city building, June 16, 1913, and organized by electing Arthur J. Seavey, chairman, and Charles F. Crockett, clerk. John Parsons was elected superintendent of water works; James A. Flanagan, engineer; and Charles Michel, assistant engineer at the pumping station.

PUMPING STATION.

The pumping station carries the usual amount of insurance. Under the orders of the Special Committee of the City Council and Water Commissioners a contract was made with the Electro Bleaching Gas Company to establish a plant at the Pumping Station, under a guarantee that their liquid chlorine would kill all bacteria, and especially typhoid germs. The same has been installed and paid for out of the earnings of the water works, and since March, 1913, has given entire satisfaction.

FILTER BED.

The filter bed has had its usual cleaning, and about three hundred cubic yards of sand has been washed and replaced on the bed, which keeps it in good condition.

SERVICE PIPES.

Five new services have been laid during the year, making a total of 963.

METERS.

There have been added twenty-five new meters during the year, making a total of 342 now in use.

Receipts and Expenditures from March 1, 1913, to March 1, 1914.

RECEIPTS.

Balance on hand March 1, 1913,	$ 274 13
Faucets,	5,248 38

Total maintenance,		$12,100 22

CONSTRUCTION.

Meter service,	$238 13	
Service piping,	210 00	
Extensions and Improvements,	876 22	
Total construction,		$1,324 35
Total expenditures,		$13,424 57

Summary Account Showing Earnings, Receipts and Expenditures from March 1, 1913, to March 1, 1914.

Bills collected by superintendent,	$15,650 19
Bills approved,	13,424 57
Balance,	$2,225 62

Owing to the unusually cold weather of the past winter, causing the use of an extra large amount of coal at the Pumping station, and also the extra expense of the installation of the Chlorine gas apparatus, we are glad to be able to report so large a cash balance.

Respectfully submitted,

Arthur J. Seavey,
Charles F. Crockett,
Frank E. Hobbs,
Water Commissioners.

WATER WORKS BONDS.

The following is a statement of the water works bonds, showing the date when they mature:

Four bonds of $1,000 each, maturing October 1, 1914.
Four bonds of $1,000 each, maturing October 1, 1915.
Four bonds of $1,000 each, maturing October 1, 1916.
Four bonds of $1,000 each, maturing October 1, 1917.
One hundred and thirty-two bonds of $1,000 each, maturing October 1, 1918.

Total amount of bonds, $148,000, with interest at four per cent.

REPORT OF SUPERINTENDENT.

To the Board of Water Commissioners:

Gentlemen: The following report of the superintendent for the fiscal year ending February 28, 1914, is respectfully submitted.

PUMPING STATION.

The pumps have worked continuously. The boilers have been duly inspected and favorable reports received from the Fidelity and Casualty Company.

The pumping station has been thoroughly overhauled and repairs made, when necessary, and is now in good working condition.

STAND PIPE.

The stand pipe and a few minor leaks have been repaired during the year.

HYDRANTS.

Every hydrant in the city has been tested and repairs made when necessary.

DISTRIBUTION PIPING.

Leak in 8-inch main, Back street; leak in 10-inch main, Main street; leak in 8-inch main, Main street; leak in 16-inch main, Rochester street; leak in 12-inch main, Winter street.

SERVICES.

Five new services have been laid during the year, making a total now in use of 963. Repairs have been made to many, owing to leaks, principally goose necks.

Under the orders of the Special Committee of the City Council and the Water Commissioners, a contract was made with the Electro Bleaching Gas Company to establish a plant at the Pumping station, under a guarantee that

their liquid chlorine would kill all bacteria, and especially typhoid germs. The same has been installed and paid for out of the earnings of the Water Works, and since March, 1913, has given entire satisfaction.

The usual amount of about three hundred yards of sand has been washed and replaced on the filter bed, which keeps the bed up to the proper standard.

METERS.

There have been added twenty-five new meters during the year, making the grand total now in use 342, classified as follows:

Dwellings,	308
Dwellings and stores,	4
Stores,	11
Schools,	5
Hotels,	1
Worsted mill,	1
Saloons,	4
Shoe shops,	1
Laundries,	2
Banks,	1
R. R. depots,	2
G. A. R. hall,	1
A. O. H. hall,	1
Total,	342

Owned by the department, 337; private, 5.

Cash received from March 1, 1913, to February 28, 1914,	$15,376 06

	$15,650 19
Paid City Treasurer,	15,224 13
Balance on hand,	$426 06

Uncollected from water takers, $468 25

In closing, I desire to express my thanks for the many kindly expressions from the gentlemen of the board, and to all those with whom it has been my pleasure to meet in my capacity as superintendent of the Somersworth Water Works during the past year.

JOHN PARSONS, Superintendent.

Somersworth, N. H., February 28, 1914.
